

Walker River Irrigation District

Established in 1919

WRID Well Permit 25813

The drawing for well water will be on the **15th of the month preceding the month of award** (*i.e. March 15th will be the drawing for April*). Invoices will be mailed or emailed on the 15th with payment being due **in our office** by 3:30 p.m. on the last business day of the month PRIOR to the award month (*i.e. April Well Water payment is due by the last business day in March*). If payment is not received in our office by close of business on the last business day of the month, you and/or your agency will forfeit the water and will not be eligible for another award until all other entities have been drawn. WRID staff will not be performing reminder calls this year- please ensure the payment is received **in our office** by 3:30 p.m. on the last business day of the month.

If you or your agency participate in the Stored Water Leasing Program, you/your agency are not eligible to participate in the Well Lottery.

Please contact our office with any questions/comments/concerns.

To enter your name or entity into the well water drawing, please contact our office at (775) 463-3523 ex 604, or email sandy@wrid.us or water@wrid.us.

District Well under Nevada State Engineer Permit No. 25813, Certificate No. 8861 to lands within the District from April 1st to September 30th.

Operations as follows:

- 1) Applications accepted throughout the irrigation season.
- 2) District Staff draws names of applicants.
- 3) Payment must be received before water is credited to storage account.
- 4) Any owner of property within the District with appurtenant surface water rights may purchase .25-acre feet of water for each acre of water right land, with a maximum purchase of 25 acre feet per entity, per season.
- 5) Water is served based upon the order in which names are drawn (first drawn, first served).
- 6) If water remains after all applicants are served, water in excess of 25-acre feet per entity, per season can be available.
- 7) Availability and delivery of such water is subject to the operating constraints of the Walker River system as the irrigation season progresses.
- 8) If the water year is less than 75% of average, the well water must be used within the month it is awarded.
